

# CHINHAE *south korea*

Chinhae, South Korea, the second port of call on WESTPAC 94, presented *California* sailors with many new and exciting opportunities. One of the more popular places to visit was Pusan. The hour long bus ride to Pusan showcased some of Korea's beautiful country, including lush forests and deep green rice paddies. While enjoying the sites, many discovered new and exotic foods served by street vendors, such as yakimando and kimchi. In addition to the affordable shopping, sailors enjoyed the beautiful weather by playing softball, participating in sight seeing tours and even a rigorous mountain climbing trip. Overall, the friendly people, affordable shopping, and scenic surroundings made Korea one of *California's* most enjoyable port visits.
